- Global Network of Planned Private Training Centers
- Special Operations Training and Support

About HMK USA

# Global Training Excellence & Special Operations Expertise

**HMK USA** is a leader in delivering customizable training programs and private operational support for military and law enforcement units worldwide. **HMK USA** is proud to operate a growing network of planned private training centers across **Bahrain, Colombia, and Southeast Asia**

Each center will be equipped with aircraft, advanced simulators and expert trainers to ensure mission-ready Special Operations operators, pilots, loadmasters, and crews.

## Training Services:

- **C-130J and KC-130J** Pilot and Loadmaster Training
- **Blackhawk UH-60L – UH-60M** Training
- **F-16 Fighter** Training (**Legacy – Block 70**)
- **Special Operations Training:** Foundational skills, advanced tactics, and aviation integration.

## HMK Capital

We are a leading financial solution provider specializing in aviation assets and training center infrastructure, partnering with governments, financial institutions, and industry partners to transform military capabilities of our customers.

# World-Class Training Services

**HMK USA** delivers tailored training programs that combine classroom instruction with practical simulation and live-flight experiences. Our Special Operations Division also offers comprehensive and scalable training programs for specialized military units. Leveraging our network of former U.S. Special Operations Forces (SOF), we provide training that enhances operational readiness and effectiveness. Our offerings include:

#### **C-130J and KC-130J Training:**

Pilot and loadmaster programs with an emphasis on cargo management, aerial refueling, and tactical operations.

#### **Blackhawk UH-60L – UH-60M Helicopter Training:**

Comprehensive training for utility and assault missions.

#### **F-16 Fighter Training (Legacy – Block 70):**

Advanced combat training using state-of-the-art simulators.

**Full Spectrum Special Operations Training:** Foundational skills that include marksmanship, medical care under fire, and communication, advanced tactics such as special reconnaissance, special insertion techniques, demolitions and military planning.

#### **Special Operations Aviation Integration:**

Training for C-130Js and Blackhawks, covering SOF specific specialized infiltration and exfiltration techniques.

## Unmatched Expertise:

At **HMK USA**, our training programs are delivered by a cadre of highly experienced instructors from the U.S. Special Operations community, including former Green Berets and Navy SEALs as well as U.S. Air Force and Marine pilots. This expertise ensures that clients receive realistic, scenario-driven training to enhance operational readiness and strategic capabilities.

## Flexible Training Options:

**HMK USA** offers the ability to conduct training at client locations or at our specialized centers, utilizing customer-owned aircraft or HMK-provided assets. Training is fully customizable to meet the unique requirements of each organization, including language preferences and mission-specific needs.

## Mission Support Operations:

**HMK USA** also provides private flight operations for mission support, ensuring reliable and efficient deployment of resources.

## Success Story:

In Bahrain, **HMK USA** has successfully delivered comprehensive C-130J pilot and loadmaster training for over four years, integrating special operations capabilities to enhance mission readiness across complex environments.

# Building Tactical Excellence with HMK USA

When you choose **HMK USA**, you gain access to unparalleled training and operational support services tailored to your needs such as:

- **Unparalleled Expertise:** Instructors with deep operational experience in the most demanding environments.
- **Comprehensive Training Programs:** From individual skill-building to full-scale mission rehearsals.
- **Global Reach and Customization:** Training programs designed to meet specific operational needs, enhancing joint force integration and interoperability.

## OUTCOMES:

- **Rapid response lower cost**
- **Enhanced tactical and operational readiness**
- **Seamless integration across land, air, and maritime domains**
- **Increased mission success rates through rigorous, realistic training**

## HMK USA Founder

**HMK** was founded by [Dr. Hooman Rezaei](#), a leader in aircraft training, operations, and technology.
