

“We innovate with passion and create life-transforming experiences”

High-impact and innovative technological solutions for the **aeronautical** and **general industry** sector.

¿Who are we?

Founded in January 2011 in Medellín, Colombia, NEDIAR is a leading aerospace company driven by a team of highly skilled mechanical and aeronautical engineers. With a strong commitment to innovation, safety, and reliability, we specialize in cutting-edge solutions tailored to the needs of the aviation industry.

Jose David Ospina
Chief Executive Officer

We collaborate with companies around the world to develop advanced training systems, high-precision aeronautical equipment, and technological solutions that **enhance operational efficiency** and **safety**.

Carlos Rojas
Chief Commercial Officer

Innovative solutions tailored for the aerospace industry

GSE & Special Tools
Ground Support Equipment, Special Tools and Fixtures.

Simulation & Training
Physical training equipment for the aeronautical sector.

Virtual simulation environments for process simulation using virtual, augmented, and mixed reality.

Engineering Solutions
Design and manufacture of parts with CNC equipment
Reverse engineering
Design of equipment layout
Tool optimization
Non-destructive test (NDT)

Projects Developed in the **Aeronautical Field**

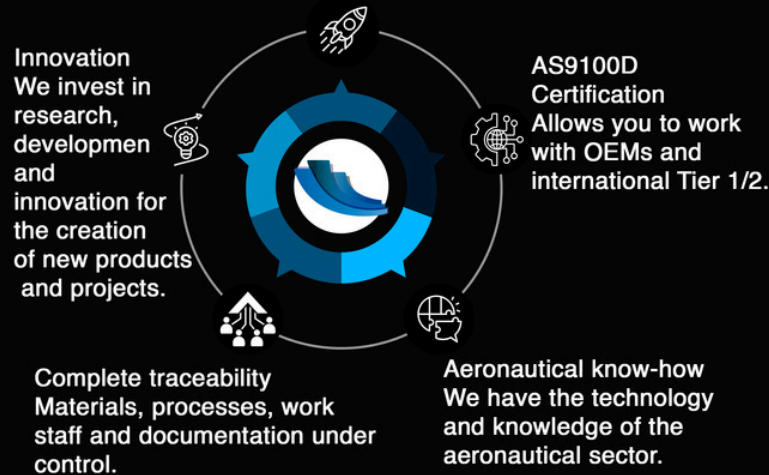

Our products are designed to significantly improve the responsiveness and effectiveness of passenger cabin crew activities, as well as to provide solutions for ground support and aircraft maintenance.

-  **Simulation and Training**
 -  High Fidelity Physical Mockups Simulators and Door Trainers
 -  Slides/Rafts
 -  Training with Virtual, Augmented and Mixed simulation
-  **Ground support equipment and special tools**
 -  Maintenance Platforms
 -  Access Ramps
 -  Compressor Washer Machines for Aircraft Engines
 -  Special Tools
 -  Pressure Water Cart
 -  Mobile Workbenches

¿Why us?

Company history
We have over 14 years of experience and a solid track record in both the national and international markets.

Our vision

By 2028, to be the leading company in innovation within the aeronautical sector and the industry in general, with a presence in America and the Asia-Pacific region.

Our mission

To contribute to the development of the industry through our technological and innovative solutions that increase our client's productivity, while generating trust, safety, and peace of mind.
