

CATÁLOGO DE VENTAS 2025

SOBRE NOSOTROS

Somos una empresa internacional fundada en Noruega en 2009, nacida de nuestra experiencia en deportes caninos y de la pasión por empoderar la vida de los perros y sus dueños.

Nuestro camino comenzó con Hårek, un talentoso perro de skijoring cuyo rendimiento se veía limitado por el equipo convencional que restringía su movimiento y respiración. Decididos a encontrar una mejor solución, creamos un equipo que le permitiera a Hårek liberar su potencial, lo que llevó al desarrollo de nuestros primeros productos.

Nuestro enfoque está en diseñar equipos duraderos y ergonómicos con un ajuste adecuado que mejore la comodidad, funcionalidad y seguridad tanto de los perros como de sus dueños. Estamos dedicados a la innovación continua, optimizando constantemente tanto productos existentes como nuevos.

Desde el principio, nuestro equipo ha sido desarrollado, probado y confiado por algunos de los mejores atletas del mundo en deportes como el canicross, bikejoring, skijoring y agility.

Continuamos probando todo nuestro equipo con atletas porque creemos que cada perro, sin importar la actividad, debe beneficiarse de equipos profesionales de alta calidad diseñados para liberar todo su potencial - ya sea en deportes competitivos o aventuras diarias.

Hoy en día, estamos orgullosos de estar disponibles en más de 2.000 tiendas en 58 países, reconocidos mundialmente por nuestro compromiso con la calidad, el rendimiento y la innovación continua. Nuestros productos también son la elección preferida de profesionales en búsqueda y rescate, el ejército y las fuerzas de seguridad.

Nuestra misión es inspirar a las personas a ser activas con sus perros, explorar nuevas actividades y fortalecer el vínculo entre ellos, sin importar la raza o la actividad.

ALTO RENDIMIENTO

Equipos para perros activos y sus dueños. Diseño ergonómico, innovador y funcional desde Escandinavia.

CONFIADO POR PROFESIONALES

Desarrollado, probado y utilizado por atletas de talla mundial en diversos deportes y bajo condiciones extremas.

FOMENTAMOS LA ACTIVIDAD

Nuestra pasión es facilitar y promover un estilo de vida activo para los perros y sus dueños.

EL PERRO ES LO PRIMERO

Todo lo que hacemos lo hacemos teniendo en cuenta la perspectiva del perro.

RAMBLE HARNESS

Highly adjustable

The harness is highly adjustable, making it a great choice for puppies. The straps run over the shoulders for growing dogs, even though they are still growing in.

Leash attachment points

In addition to the standard D-ring attachment point on the back, there is a loop for leading the dog under the chest, as well as a third point at the front of the harness to hold and pull control.

Back handle for assistance

Featuring a solid handle that gives you a convenient way to support the middle section of the dog.

Stable

33% reflective lining for visibility in dark and overcast.

Reusable

The harness is made of durable and easy-to-clean material, making it easy to keep your dog clean. The harness is made of high-quality material, which means it will last for a long time. The adjustable straps and handle are made of durable and easy-to-clean material.

FREEMOTION HARNESS 5.0

Freedom of movement

Designed to allow your dog freedom to move freely and without restricting movement.

Designed for pulling

Specifically designed for dog owners who want to increase pulling and jumping. The harness has been thoroughly tested and built by professional athletes for more than a decade, but is suitable for any owner dog.

Customizable fit

Adjustable neck and chest straps allow you to customize the fit according to your dog's own body shape. The construction

ensures that the harness is snug and secure, maximizing your dog's comfort and safety.

Padded neck

Extra padding around the neck makes the harness more comfortable for your dog, as well as being most stable when pulling.

Adjustable parts

To ensure the life cycle of your harness, parts exposed to wear and tear are replaceable.

LINE HARNESS GRIP WD

Benefits

Allows you to control your dog more effectively and to provide greater control when needed. The harness is strategically positioned to prevent wrapping or vegetation while also being easy to grab when working hard to slow down.

Features

You can attach padding to the back and front harness for extra protection or identification for your dog.

Free shoulder movement

It shaped neck, allowing your dog to move freely without any restriction or hindrance.

Extra padding

Adjustable padding that provides a cushioned feel and helps your dog feel more comfortable and safe.

Secure attachment point

In addition to the standard attachment point, it features an extra strap for an extra secure attachment.

CINTURONES

Un cinturón libera tus conmanos cuando corres o caminas con un perro correa, haciendo que el ejercicio sea más cómodo para ambos.

La fuerza de tu perro se transfiere a través del cinturón hacia tu cuerpo, lo que significa que un diseño ergonómico y funcional es esencial. Esto minimizará la tensión en tu zona lumbar.

Las diferentes actividades exigen funciones específicas del equipo. Por eso hemos diseñado cinturones para actividades concretas, como correr o esquiar.

También ofrecemos cinturones versátiles que funcionan igual de bien en tu caminata diaria como en una travesía más larga.

TREKKING BELT 2.0

Hands free convenience

By easily attaching your dog's leash to your belt, you can keep the freedom to move and engage in activities without having to hold your dog's lead in your hand.

Optimal comfort and back support

Designed with your comfort in mind, the belt is equipped with soft and lightweight padding that provides optimal support for your back.

Customizable and adjustable fit

Equipped with a removable leg strap that helps to hold the belt securely in place.

Enhanced visibility and safety

An open front "hook" attachment, designed with safety and convenience in mind. The open front design serves as a quick-release mechanism, allowing you to quickly remove the hook from your belt after use.

FRICION LONG LINE

Excellent grip

Seven rows of rubber thongers on each side of the webbing provide you with excellent grip.

No knots

The Long Line is made with expert stitching to prevent frays and to ensure handle.

Lightweight

The line is lightweight and easy to handle. It glides easily through the reins without getting caught.

Flexible

The line is made of flexible material that can withstand wear and tear caused by contact with the ground and vegetation. The stitching is reinforced with flexible rubber that can be folded up the end of the line to make it easy to fold when you are out of the line.

Durable

The line is equipped with a flexible handle that is made of durable material. The handle has the shape of a horse's head to prevent the line from twisting.

TOURING BUNGEE WD

Shock absorbing

The shock cord absorbs shock, reducing the impact of sudden movements. The breakaway system is gentle on animals and more comfortable, preventing pulling or jerking when they start to run.

Break construction

Breakaway breakaway dog collars with shock absorbing for increased strength.

Extremely resistant when not combined with a shock cord is not recommended for the regular use of the shock cord.

Shock friendly and secure

The shock cord is made of a strong and long material, which is very strong and secure. The shock cord is made of a strong and long material, which is very strong and secure.

TOURING BUNGEE

Shock absorbing

The shock absorber acts as a shock absorber, reducing the impact of sudden movements in walking dogs. The feature helps to provide a smoother and more controlled experience, reducing stress on both your dog and you.

Suitable for moderate pulling

Designed for moderate use and moderate pulling.

For any dog and performance

Compatible with various dog breeds and sizes, and suitable for both urban and rural environments. The elastic band is used to absorb the shock and reduce the impact on your dog's joints, ensuring a more comfortable and controlled experience.

Highly visible

Optimized reflective elements, which increase visibility during low light conditions. This is especially beneficial for walking at night or in low light conditions.

BUNGEE LEASH

Fully elastic

The elasticity allows the leash to absorb and dissipate the shock generated from pulling and sudden movements. This helps protect both you and your dog from the impact during activities.

Superior performance

Constructed using high-quality materials to ensure durability and stability. The unique design of strong rubber that can withstand the pulling force of even the strongest dogs without losing its elasticity.

Tested by professionals

Thoroughly approved by elite athletes in dog movement sports.

Resistant material

The bungee material is designed for long durability. The reinforced ends make sure that your dog remains securely attached to the leash.

TOURING BUNGEE ADJUSTABLE

Shock absorbing

The shock absorbing cord is a shock absorber, reducing the impact of sudden movements. The bungee cord is made of a synthetic and heavy controlled polypropylene, ensuring strength and your dog and you.

Variable use

Featuring an aluminum handle that allows you to easily modify the length and use it for your specific needs. The variable use is used for both around your camp for tenting and walking or for a short time when you're off the road.

Handle for extra control

Designed with variable adjustment, the handle is made of a soft, durable material to allow you to use it for extra control.

Lightly visible

Featuring reflective elements, which increase visibility during low light conditions. There are also reflective elements for marking or for marking the dog.

Secure connection

The shock absorbing cord is designed for maximum safety. The cord is made of a heavy-duty material that ensures safety and that your dog remains securely attached to the handle.

Storage folds

FJORD RAINCOAT

Superior rain protection

Wind and water proof membrane with excellent breathability and a 5000 mm waterproof rating to keep you dry day and night. Thanks to the tear-resistant polyester body and reinforced adjustable patch corners for extra protection for a longer outdoor life, your dog is ready.

Freedom of movement

The construction is from materials that provide you with your dog with maximum comfort.

Stays in place

The jacket includes an adjustable chest strap and elasticated hem to ensure it stays in place.

Keep that the perfect place to allow your dog to stay active on their outing.

Remains comfortable

The jacket includes two dedicated front straps, allowing your dog to wear it loosely and comfortably.

Storage folds

The short length design prevents water from getting into your dog's paws, which could cause them to get cold and uncomfortable.

LY SLEEPING BAG

Effective recovery

A sleeping bag allows your dog to rest undisturbed between training sessions, so rather than sit alone, relaxing together.

Multifunctional

Ly sleeping bags made of non-purposed together with a (light) support. The bag has an external support ensuring the sleeping is more. The bottom part has a thicker regulating layer and there being making it comfortable for the dog to lay on. The top part is covered completely if you want to use the sleeping bag as a regular blanket.

Water repellent

The bottom has an 8.000 mm waterproof fabric to protect against moisture on the ground. The shell layer on the top has a 1.000 mm waterproof rating.

Portable

The sleeping bag is lightweight and takes up very little space when compressed. A practical compression bag is included.
