SHIPMENT PROCESS FLOW

#WeKnowItsAboutTrust

Notification of shipment

OCASA will receive advance notice of shipment 48 hours prior to planned departure, including all documents as per shipment SOP.

OCASA Export Department

Will be responsible to:

- Check all paperwork ,
- Send paperwork to destination customs broker for clearance
- Complete booking with the airline and organize transport
- Organize for packaging delivery
- Ensure packaging is conditioned correctly (gel packs / Dry Ice)
- Create the booking in SAP so shipment status can be seen online.

OCASA Destination

Will confirm all documents are correct and commence with pre-clearance approval. Green light will be given to OCASA Exports.

Physical Process

The shipment will be picked up, logged with the airline and sent to destination. Destination will customs clear and deliver to consignee. Proof of delivery will be provided.

System Update

Each milestone will be updated in the OCASA SAP system and can be checked online. Alternatively, the shipper can be emailed a milestone update.

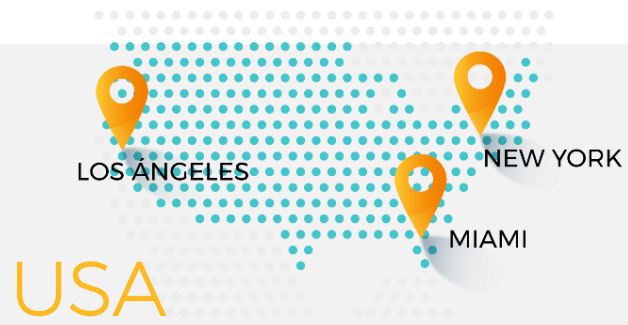

Why OCASA?

We are specialists in the **Next Day** interconnection from **LATAM** to the final destination, especially to the final Central Labs in the **USA**.
