FARM LOCATION

Our farm, Hacienda Cuba, is located in the municipality of Belalcázar in the Caldas province, between the La Alemania and Los Micos regions.

At an altitude of between 1,400 and 1,800 meters, the conditions are perfectly suited to quality coffee bean cultivation.

Hacienda Cuba is where both the locals and the Embera Chami indigenous community come together.

We have different micro-fields where we cultivate our beans. The characteristics of the coffee vary depending on the altitude at which it is grown.
