

# LA REVOLUCIÓN DE LAS FACHADAS Y EL DISEÑO DE INTERIORES

IROPANEL® es una solución innovadora y sostenible para el revestimiento de fachadas y la decoración de espacios interiores y exteriores. Su fabricación en ABS, material catalogado como un polímero de ingeniería, le confiere muchos atributos, destacando su bajo peso, resistencia a la corrosión, amplia gama de diseños y colores, entre otros.

Su proceso de fabricación se basa en los principios de economía circular, los cuales permiten que IROPANEL® reincorpore material post-industrial y sea 100% reciclable a lo largo de su vida útil.

Te ofrecemos una gama de alternativas de diseño, que te pueden ayudar a definir tus proyectos ó a plantear tus propias ideas con base en las categorías que se exponen a continuación:
